EDUCATION

P.E.S Modern College Of Engineering Bachelor of Engineering in Artificial Intelligence And Data Science (8.2/10.0 CGPA)   *24*

SKILLS

Languages Java · SQL
Software & Frameworks   React · Next.js · Selenium · Tailwind CSS
Tools   Git · GitHub · Postman · Figma · Vercel · Clerk
APIs   Gemini API
Databases PostgreSQL · Firebase

EXPERIENCE

Iesoft Technologies   *Remote*
Software Engineer Trainee   ***Oct 24 - Present***
Selenium · Java · Git · GitHub · Postman
- Automated website testing using Selenium, writing detailed test cases to ensure functionality and efficiency
- Conducted API testing with Postman and managed version control using GitHub for collaborative development

OASIS INFOBYTE   *Remote*
Web Development and Designing Intern   ***March - April 23***
React · Tailwind CSS · Figma
- Designed and implemented front-end components for a website using React and Tailwind CSS based on provided Figma designs
- Delivered modular chunks of work, ensuring alignment with design specifications and efficient integration into the project

PROJECTS

Flashcard Generation Repository
  Next.js · Tailwind CSS · Gemini API · Firebase
- Developed a Flashcard Generation application that allows users to create and review language flashcards
- Implemented a user-friendly interface using Next.js and React, ensuring responsiveness and accessibility with Tailwind CSS
- Integrated Gemini for generating flashcard content based on user input, enhancing the learning experience

Financial Tracker Application Deployment | Repository
  Next.js · Tailwind CSS · Clerk · PostgreSQL · Vercel
- Developed a financial tracker to manage budgets by category, allowing users to define categories and set price limits (e.g.,₹10,000 for a trip)
- Implemented a user-friendly interface and robust backend to ensure seamless budget management and category tracking

Pantry Management Repository
  Next.js · Tailwind CSS · Gemini API · PostgreSQL
- Built a pantry management system where users input preferences like grocery items, cooking time, difficulty, cuisine type, and allergies
- Integrated Gemini API to generate personalized recipes based on user inputs, with options to save favorite recipes for future use

Achievement

- Secured 2nd prize in a college project exhibition for developing an innovative blockchain-based pharmaceutical Supply Chain Management System
